INTRODUCTORY

The territory of Delhi has been experiencing floods mainly from river Yamuna and Sahibi river passing through Najafgarh Drain in Delhi. When there is heavy rainfall or floods, local drainage system has often been found to be inadequate to drain out the heavy discharge. Several flood mitigating measures like raising & strengthening of marginal embankments of river Yamuna, remodelling of Najafgarh Drain, and construction of Supplementary Drain have been taken up over the years to avoid recurrence of floods like the ones experienced in Najafgarh drainage system in 1977, 1978 and in Yamuna river in 1978, 1988, 2010, 2011 and in 2013. However, constant vigil will have to be maintained on river embankments during heavy rainfall, floods when river Yamuna may attack its embankments, and appropriate measures need to be taken for checking any abnormal erosion due to meandering of the river. The regulators constructed at mouths of MCD drains outfalling into river Yamuna in the city reach will have to be operated from time to time to suitably pump out the city drainage in case the river is in high flood and heavy local rainfall occurs to prevent backflow from high river stages.

A close liaison is to be maintained with U.P. Irrigation Department for timely opening of gates of Chilla regulator, if heavy discharge enters Delhi through Shahdara drainage system, either due to heavy local rainfall or rainfall in upstream Loni-Saharanpur U.P. areas. Boats and emergency portable pump sets will have to be kept ready to meet any exigency arising out of the flood situation.

District Magistrate (East) will make necessary arrangement for any emergency shifting of cultivators and their cattle from the embankments. During flood season, in case boats or any other flood fighting material/assistance is required by other department/agency, the requisition for the same shall be forwarded through DM (East) Revenue Deptt.

Functions of Central Flood Control Room

Following are the functions of Central Flood Control Room:

- (i) To receive flood warnings and other related information;
- (ii) To submit Flood situation reports to the Hon'ble LG, the Chief Minister, Chief Secretary, Divisional Commissioner and Secretary (I&FC) every evening, or as and when the Circumstances may require;
- (iii) To convey Flood situation reports and orders relating to flood control measures to the Sector Officers/Sector Control Rooms and concerned Organisations/ Departments of the Administration (through their Liaison Officers);
- (iv) To issue necessary Flood warnings and directions for evacuation;
- (v) To arrange necessary food articles and relief supplies;
- (vi) To maintain Liaison with Upper Yamuna Division of C.W.C., R.K. Puram, New Delhi and Army/Air Force, when required;
- vii) To maintain a fleet of vehicles needed for mobility of staff and the relief measures.

The Control Room shall maintain a log-book of messages received and despatched by it. The directions received from senior officers and transmitted shall also be recorded in the log-book under the initials of the Officer incharge.

A Control Room will also be set up at L.M. Bund Office Complex, Shastri Nagar, Delhi-31 in the office of the Chief Engineer (I & F), Govt. of Delhi, which will function from 15th June, 2019 to 15th Oct. 2019 or till the monsoon withdraws, whichever is later. This Control Room will remain in constant touch with wireless stations, at Katwaria Sarai-Central Water Commission; in the Office of the D.M. (East), L.M. Bund, Shastri Nagar, Delhi, and will coordinate activities of the Flood Control Deptt.

In addition to the above, a number of regional posts of Flood Control Deptt. will be set up at the following important locations along river Yamuna, Najafgarh Drain, Supplementary Drain, Jahangir Puri Drain and Trunk Drain No. 1 to monitor the flood situation or drainage congestion & handle any eventuality, effectively:

S.N.	River/Drain		Name of wireless post	Location
1.	River Yamuna	1.	Central Flood Control Room	L.M.Bund Shastri Nagar
		2.	Katwaria Sarai	CWC Office
		3.	Palla	Palla Store, CD-VI
		4.	Jhangola	Jhangola Store,CD-VI

SCHEME OF OPERATION

(a) Danger Levels

For purpose of studying the flood situation in river Yamuna, reference to water level at Old Railway Bridge is taken as the basis. The provisionally revised warning level on the basis of minutes of meeting dated 10.05.2019 of CWC (copy annexed at annexure-L) for river Yamuna at Old Railway Bridge is 204.50 Mtr. (670.93 ft) and the danger level is 205.33 Mtrs. (673.65 ft). As against these levels, the highest flood level recorded was 207.49 Mtrs. (680.57 ft) in 1978 and 207.11 mtrs. (679.32ft.) in 2010 and 207.32mtrs (680.01ft) in 2013.

No specific warning / danger level is in existence for flows in Najafgarh drain (urban portion). However it is normally seen that back water effect of flood water in Yamuna is reflected in the Najafgarh Drain corresponding to a level of 206.04 Mtr. at Old Railway Bridge, the flow in Najafgarh Drain is substantially affected.

(b) Flashing of Warnings

Central Flood Forecasting Division of Central Water Commission, R.K. Puram, New Delhi monitors the flood discharges in River Yamuna, right from the upper catchment and issues flood forecasting bulletins for various stage of floods. The forecasts based on the discharge from the Hathni Kund Barrage (3 km. u/s of Tajewala) are relevant to Delhi, as the travel time required for the flood water from Hathni Kund Barrage to Delhi varies between 36 to 72 hours depending upon the prevailing flow conditions in the river. Similarly, data regarding rainfall in the catchment of Sahibi River, Najafgarh Drain is also computed by Central Flood Forecasting Division of CWC and messages are sent regarding discharge at Masani Barrage.

(i) First Warning

In respect of river Yamuna, the first warning shall be issued by Central Flood Control Room as soon as the discharge from Hathni Kund Barrage exceeds one lakh cusecs whereupon the relevant Sector Control Rooms shall start functioning and keep a vigil in their respective areas. The first warning in respect of Najafgarh Drain will be issued when Discharge at Masani exceeds 35000 cusecs. After issue of this warning, the concerned Sector Officers shall arrange to advise the villagers in Jheel areas of Najafgarh Block to remain alert. The boats will be requisitioned and placed at vulnerable points.

(ii) Second Warning

Second Warning in respect of river Yamuna shall be issued when the discharge from Hathni Kund Barrage exceeds 3 lakh cusecs. People residing within the river embankments shall be warned and arrangement made to shift them to safer places. The Police and the staff of the Flood Control Deptt. would undertake patrolling along Right & Left marginal embankments and keep vigil on the vulnerable points. In respect of Najafgarh Drain, the second warning shall be issued when the discharge at Masani Barrage exceeds 70000 cusecs. People in Jheel area shall be asked to move to higher places.

(iii) Third Warning

In respect of river Yamuna, this warning will be given when the flow at Hathni Kund Barrage exceeds 5 lakhs cusecs while for Sahibi, this warning shall be issued when the discharge at Masani Barrage exceeds one Lakh cusecs. People residing in dangerously exposed areas will be advised to remain alert and move to places of higher altitude, in case of need.

(c) Assistance from the Army

In case of need, the Divisional Commissioner may seek assistance from Army in controlling floods, evacuation of the marooned people, distribution of food supplies and other related matters. The present assessment indicates that Delhi may need about 15 army boats for relief measures. G.O.C., Delhi Area will also circulate a Flood Relief Scheme and issue a set of instructions for the guidance of the Army Officers deployed on such emergent works.

(d) Vulnerable Points

The present assessment reveals that inspite of several Flood mitigation measures, locations as per table given below have been identified as Critical/Vulnerable points, which will require special attention and constant vigil during floods of high magnitude in river Yamuna or during heavy rainfall.

(f) Operation of Barrages

At present, the operation of barrages across river Yamuna in Delhi Territory is under the control of following authorities:

- | | | |
|-------|-------------------|-------------------------------|
| (i) | Wazirabad Barrage | Delhi Jal Board |
| (ii) | I.T.O. Barrage | Haryana Irrigation Department |
| (iii) | Okhla Barrage | U.P. Irrigation Department |

In the event of medium or high floods in river Yamuna, the following divisions of Irrigation & Flood Control Department will associate themselves with the operation of these barrages to ensure unobstructed passage to the flood discharges. Divisional Commissioner Delhi will issue suitable instructions to the authorities who are in-charge of these barrages.

Wazirabad Barrage	CD VI (I & F Deptt.)
I.T.O. Barrage	CD III (I&F Deptt.)
Okhla Barrage	CD V (I & F Deptt.)

(g) Rural Drainage

Rural drains in Delhi territory have been planned to drain out low lying rural areas (agricultural). These area are being served by important drains like Mungeshpur drain, Nangloi Drain, Drain No. 6 , Burari Creek, Karari Suleman Nagar Drain, portion of supplementary drain below G.T. Road, Bankner Drain, Sanoth Link Drain, Shahdara drainage system and other small drains. Improvements in these drains by clearance of silt where ever required, cleaning of opening in pipe culvert/bridges etc. shall be ensured before the flood season by I&FC Deptt.'However link drains from village ponds to these trunk drains are under the control of respective MCD and the responsibility of ensuring proper functioning of storm water drainage of entire rural area of Delhi has been vested with the M.C.D(s). The Zonal Officers of M.C.D. should acquaint themselves with the drainage congestion problems in their respective areas and take suitable remedial measures well in advance to avoid any drainage congestion.

Drainage of unauthorised Colonies

Proper drainage system within some unauthorised colonies has not been developed so far, resulting in stagnation of storm water in pools and low lying plots. For drainage of these ponds, batteries of pumps have to be installed to link the colony water to nearby drains. These pumps shall be deployed by MCD in all the unauthorised colonies outside the development area of DDA and in the unauthorised colonies within the development area of DDA, they i.e. DDA will deploy pumps as per decision taken by the hon'ble Chief Minister during the meeting held on 6-4-95. As per cabinet decision no- 1966 dated 10.12.2012, it has been decided for unauthorized colonies that in all colonies scavenging and cleaning of said drains is to be done by the respective Municipal Corporations. Street lights are to be maintained by the DISCOMS and its aurmentation shall also be done by the respective DISCOMS for which provision could be done in initial estimates of the work. Furthermore, development works has been assigned to DSII DC as sole agency for execution of all works in all unauthorized colonies in future, as circulated vide letter No. F.1-33/UC/UD/Policy/07/partlife/CD-021297485/350-361 dated 10.03.2016. Municipal Corporations to carry out desilting work of drains in unauthorized colonies which are less than 4ft. irrespective of the agencies which are carrying out the development work in that area, it is as decided during meeting on dated 19.05.2014 at 12 Noon, under the chairmanship of Hon'ble L.G. of Delhi.
