the present case is 4.11.1976. The land under acquisition consist of ~~10 1/2~~ ^{10 1/2} ~~12~~ (524 Aq. yds.) Biswas situated in Village Ghondli.

While fixing the market value of the land, various factors such as size of the plot, its location, its potentiality are to be taken into consideration. In addition to this, the various factors mentioned u/s 23 of the L.A. Act have also to be kept in mind. Bonafide sale transactions of comparable land and awards for similar land from the Collector or from the Court made at a date reasonably close to the date of notification also serve as a guideline for assessing the market value.

The piece of land under consideration consists of two plots A-15 (Located on the main road) and A-25 on the other side of it. The piece of land is surrounded by built-up residential houses.

4. While going through the revenue records it was observed that the land is entered in the name of M/s D.L.F. Pvt. Ltd in the capacity of ownership who in turn has sold these plots to different persons mentioned in heading 'Claims & Evidence.'

The Revenue Field Staff has collected the information regarding registration of sale deeds effected close to the date of notification i.e. 4.11.1976 from the Office of the Sub-Registrar-IV, Krishna Nagar, Delhi. The details are as follows:-

S.No.	Name & address of the transferor	Transferee	Details of Property	Consideration/Date amount for transfer

These sale deeds however relate to very small plots which are known to fetch very high price and cannot be therefore regarded similar to plots under assessment.

The owner of Plot No. A-15, Smt. Kaushlaya Devi has in her claim filed sale deed relating to Plot No. 34, Block E-5, measuring 133 sq.yds which was sold for Rs. 42,000/- on 27.12.1974. This piece of land which is situated in the main part of Krishna Nagar cannot be considered similarly circumstanced to the present land.

The revenue staff had searched for similar awards relating to the pieces of land situated close to the land being assessed. The awards relating to Village Ghondli are given below:

S.No.	Date of Notification u/s 4/ Award Number	Area Big-Bis	Rate awarded by L.A.C.
1.	1872	24.10.61 19-6	Rs. 3000/- p.b.
2.	1983	-do- Plot No. C-1/7 458 $\frac{1}{2}$ sq.yds Plot No. C-2/7 458 $\frac{1}{2}$ sq.yds Kri shna Nagar, Ghondli	Rs. 40/- p.sq.yd Rs. 37/- p.sq.yd
3.	2128	-do- 108-7	Rs. 3,000/- p.b.

5.	26-4/71-72	-do- 0-18	Rs. 6,300/- p.b.

Awards mentioned at S.No's 1, 3 & 4 pertain to very large pieces of land not appd. for residential purposes. Award No. 26-4/71-72 relates to a piece of land which is not similarly circumstanced to the land under assessment. These awards can

therefore not be utilized as an aid for calculation of market value of the land under assessment which is in form of small plots to be used for residential purpose and located in a regularised colony.

An idea of the market value of the plots under assessment can however be had by comparing plots for which compensation has been assessed in Award No. 1983 mentioned at Sr.No. 2. The land assessed in that award is in form of small plots situated close to the 40' wide Krishna Nagar Road. The date of preliminary notification in that case was 24.10.1961. The market value assessed is Rs. 40/- p. sq.yd & Rs. 37/- p. sq.yd. By assuming that the prices of land have increased about 6% p.a. we can expect the market value to have increased by about 90% during the 15 years of time between 24.10.61 and 4.11.1976 (the date of preliminary notification under section 4 in the present case). It can thus be concluded that the market value of land similar to that assessed in award No. 1983 should at present be about Rs. 76/- p. sq.yd. The Plots under assessment are however much smaller as compared to the plots in Award No. 1983, and are therefore bound to fetch much higher price. An additional factor which enhances the market value of these plots is that these plots form part of a regularised colony having all types of civic amenities and are situated very close to the 80' wide main Patparganj Road. The location of the plots in a regular residential area is an important factor to be considered while assessing the market value. Therefore keeping in view the ~~fine~~ better location of the plots under assessment and giving due consideration to the size of the plots, I feel that the market value of the land under present award is bound to be higher than the present market value of land assessed in award No. 1983.

The land under assessment can be divided into three parts. One Plot No. A-15 falls on the main road, other Plot

95

: 6 :

No. A-35 is situated next to it and 140 sq.yds of land is being used as thorough fare. The location of Plot No. A-15 is comparatively better than that of Plot No. A-35.

Taking all factors into consideration, I feel that compensation for Plot No. A-15 be fixed @ Rs. 90/- p.sq.yd and Plot No. A-35 be fixed at Rs. 85/- p.sq.yd. No compensation is being assessed for ~~140~~ ¹⁵ sq.yds of land which is being used as thorough fare.

TREES, WELLS & OTHER STRUCTURES

There is no tree, well or other structure on the land under acquisition.

SOLATIUM

15% solatium will be paid on the market value of the land.

INTEREST

Interest u/s 4(3) of the L.A. (Amendment & Validation) Act, 1967 is not applicable in this case.

APPORTIONMENT

The compensation will be paid to the interested persons on furnishing proof of ownership. In case of dispute, the amount of compensation will be sent to the court of A.D.J., Delhi for adjudication of the title u/s 31 of the L.A. Act, if the dispute is not amicably settled between the parties within a reasonable time.

LAND REVENUE

The land is not assessed to any land revenue.
