Market Value:

The market value of the land under acquisition has to be fixed with reference to the price prevailing as at the date of notification u/s 4 of the Land Acquisition Act with all its advantages and with all its potentialities.

One claimant Shri Raghbir Singh has filed a certified copy of the resolution No.531 of the Municipal Corporation of Delhi dated 9.1.1968. The Corporation purchased the land measuring 73 bighas 09 biswas at Rs.3200/- per bigha. These khasra numbers are immediately behind khasra Nos. 66, 67, 68 which abut the Delhi Najafgarh Road and the distance from the road is less than half a furlong. The Corporation purchased the land in question through sale deed No.9113 dated 27.11.1968. Two other sale transactions of land similarly situated have taken place. The registration No. is 9114 and 9115 executed on 27.11.68 and 27.11.68 respectively. Both fetched Rs.3200/- per bigha kham. The land under acquisition is neither close to the sale transactions in question nor to the road. The land under acquisition is also at a distance from the village abadi. As such, the land under acquisition suffers from these disadvantages. Hence, these sale transactions are discarded. Yet, another sale transaction bearing registration No.4221 took place on 16.6.70. It fetched Rs.2080/- per bigha kham. The khasra number involved is 88 which is situated behind the land of the said sale transactions. Because it is away from the road, it fetched lesser price than the other three sales. The land under acquisition is neither on the road nor near the abadi. It is also not close to the land of the sale transactions in question.

Through award No;1911 land was acquired for remodelling of Najafgarh Drain from Chhawla Bridge to Kakrola Regulator. The date of preliminary notification was 13-12-65 and the LAC awarded a flat rate of Rs.1000/- per bigha kham. The land under acquisition is also being acquired for remodelling of Najafgarh Drain from Chhawla Bridge to Kakrola Regulator. Actually, the drain which has already been dug in the land

acquired in award No.1911 is being widened and some land of the same khasra number are under acquisition for widening of the drain. So, the price determined for the land acquired in award No.1911 will have to be taken into account. As stated above, the land under acquisition does not enjoy the same advantages as enjoyed by the sale transactions in question. The land under acquisition was notified u/s 4 on 19.2.71 and the date of notification of the land acquired in award No.1911 is 13.12.65. The period between the two is about six years. By allowing interest at Rs.6% per year on the awarded amount of Rs.1000/- in award No.1911 it would be possible to arrive at the market value of the land under acquisition on 19.2.1971. Thus, the market value works out to Rs.1300/-. In the result, I award Rs.1400/- per bigha kham for the land under acquisition.

Structures:

There are no structures on the land under acquisition. Hence, the question of assessment of compensation for structures does not arise.

Wells and trees:

There are no wells and trees in the land under acquisition. So compensation for the same cannot be allowed.

Religious places:

There are no religious institutes on the land under acquisition.

Interest:

Possession of the land under acquisition has not been taken over as yet. So the question of interest does not arise.

Solatium:

15% solatium will be allowed as per the Act for compulsory nature of acquisition.

Apportionment:

1. The compensation of minors will be sent to the ADJ.
2. Compensation will be paid according to the latest entries in the Revenue Record.

Land Revenue:

The land revenue is reported to be Rs.1.79P. It will be deducted from the Khalsa Rent Roll of the village from the date of taking over possession.

Summary:

The award is summarised as under:
