No other claimant filed any documentary evidence in support of his claim regarding market value.

MARKET VALUE:

The market value to be ascertained is the <sup>value to the</sup> owners of the land in its actual condition at the date of publication of notification under-section 4 of the Land Acquisition Act with all its existing advantages and with all its potentialities. By market value is reckoned the price which a willing vendor might reasonably expect to obtain from a willing purchaser for the land in that particular position and with these particular potentialities. The best evidence available to prove what a willing purchaser would pay for the land under acquisition would be a evidence of genuine sales, affected about the time of notification. In determining the market value of the land on the basis of sales of other lands, the question of similarity between the two lands is of particular importance or in other words lands must be actually parallel. In support of her contention Smt. Vimla Saral has filed several exemplars to serve as guide in determining the market value of the land. But these exemplars are hardly of any avail as they are in no circumstances parallel to the land under acquisition. The exemplar cited by her at S.No. 1 is hardly of any use, as it pertains to a transaction ment for commercial use. Obviously, premises ment for Industrial or Commercial uses fetch a much higher market value than those put for residential purpose. Further, the sale-deeds cited by her at

Contd.

2,3,4,5,6,7,& 8 have also no bearing in determining the market value of the land as these plots were purchased in highly developed locality, whereas the land under acquisition is not in a developed condition. Further, the sale-deed cited at S.No.9 pertains to a transaction affected in Defence Colony which is a highly developed and sophisticated colony and is about 3 miles away from the land under acquisition. This sale-deed cannot be in any way helpful in determining the market value of the land. Further, the exemplar cited at S.No. 10 & 11 pertain to lands on the front of the Ring Road and decidedly more advantageous than the land under acquisition. A lease-deed produced by her<sup>2</sup> cited at S.No.12 was given to Caltex for commercial purposes and therefore, no inference can be drawn from this lease-deed. Further, the sale-deeds cited at S.No.16, 17 & 18 cannot be taken into consideration as they relate much before the material date. Apart from these sale-deeds, three uncertified copies of judgments of the Addl. District Judge, have been filed in which the compensation was enhanced under the reference petitions from Rs.3000/- to Rs.7000/-per bigha kham and in other case from Rs.3000/- to Rs.9000/-per bigha kham.

It may be noted that the lands in these awards have better location than the land under acquisition., and it would thus appear that all the documents filed by Smt. Vimla Saral have no bearing in determining the correct market value of the land.

Efforts were made at this end to find out the parallel sale-deed executed a few years preceding the material date. The following statement shows the various transactions made during the different years and the sale price of the land per bigha.

Contd.....8/-

S.N.	Year.	Area Big. Bis.	Considration money.	Average per bigha.
1.	1953-54	53 - 12	Rs. 1,90,048/-	Rs. 3,545.67P.
2.	1954-55	223 - 15	Rs. 6,81,756.69P	Rs. 3,046.96P
3.	1955-56	261 - 2	Rs. 9,20,649.50	Rs. 3,525.70
4.	1956-57	260 - 16	Rs. 9,55,190.12	Rs. 3,662.54
5.	1957-58	20 - 02	Rs. 1,48,800.00	Rs. 7,402.98P
Total		819 - 7	Rs. 28,96,444.31	Rs. 3,534.94

I have inspected the land and find that the land is not very fertile for agricultural purposes but had acquired at the time of notification U/s 4, some potential value as building site/due to various Housing Schemes sponsored by the Government. In view of the above observations and considering the various sale-deeds as cited above, the market value of the land has now to be determined with reference to judicial decisions for parallel lands, if any.

Apart from similar sales, awards of the courts U/s 26 of the Land Acquisition Act afford a guide to the amount of compensation to be awarded. It has been held that "there cannot be clearer authority that previous decisions in acquisition cases are relevant in a subsequent case where the market value of the land in the same neighbourhood is in issue". In the land Acquisition Case No.2 of 1964 of Smt. Vimla Saral V/s Union of India decided by the Addl. District Judge on August, 27, 1965 in a reference petition, the rate of compensation for the land was enhanced and fixed at Rs. 6/- per sq. yd. The land under reference is just adjacent to the land under acquisition with parallel circumstances. This also hold good in case of Khasra Nos. 54/3/2/1 and 28/1 though they lie on the other side of the Ring Road. The preliminary notification in the case of land of Smt. Vimla Saral as stated above was issued on 26.10.57, that is to say after about a year. The question now arises what has been the change in the market condition in the locality regarding the land values during the intervening period of a year. During this period, the market conditions had been normal and if there

Contd.....9/-

had any transactions representing higher price, they cannot be relied upon as being speculative purchases. In view of the above observations, therefore, I fixed the market value of the land at a flat rate of Rs.6000/-per bigha kham.

TREES WELLS & OTHER STRUCTURES:

TREES: There are no trees in land under acquisition, and hence no compensation is payable.

WELLS: There is one well in field No.73, which has been valued at Rs.1902 by the Valuation Officer, I agree with the estimate and award Rs.1902 for the well.

STRUCTURES: The land under acquisition has numerous structures. The Valuation Officer has assessed these structures at Rs.31729/- which is reasonable. The claimants have filed exorbitant claims as compensation for these structures, without filing any valuation estimates hence no reliance can be placed on their claims for want of evidence, I agree with the estimates of the Valuation Officer and award Rs.31729/- for the structures(List of structures prepared by the Valuation Officer is enclosed with this award).

15% FOR COMPULSORY ACQUISITION:

15% solatium is payable over and above, the compensation assessed under section 23(1) firstly.

INTEREST: According to sub-section 3 of section 4 of the Land Acquisition(Amendment & Validation) Act, 1967, simple interest at the rate of 6% is payable after the expiry of 3 years from the date of publication of notification U/s 4. The Preliminary notification was made on 6.11.58 and hence the interest is payable from 6.11.61 to 5.6.67.

APPORTIONMENT:

Compensation will be paid on the basis of the latest entries in statement 'B' which has been prepared from the revenue record. This land is governed by the Delhi Urban Area Relief Act, 1961 under which the non-occupancy tenants of the lands have substantial rights who have claimed compensation thereof. In cases where the

Contd.....10/11/67

persons interested do not come to compromise, the amount will be deposited with the Addl. District Judge under section 31 of the Land Acquisition Act. The compensation for structures will be payable to the owners on present title.

SUMMARY OF THE AWARD:

The award is summarised as under:-
