The market value of the land has to be assessed keeping in view of the potentialities and advantages attached with the land. The assessment has to be made by making realistic comparison of the land under assessment with pieces of similarly circumstanced land. The market value has to be assessed with respect to the date of primary notification u/s(4).

It was observed that in this village land was earlier acquired vide award No.115/80-81. The date of notification u/s (4) in that case was 30.5.79 and compensation was assessed @ Rs.3250/- per bigha.

The land under assessment is situated just and adjacent to the land acquired vide award No.115/80-81. The nature of soil in the two cases is also similar.

I have therefore based the market value of the land under assessment on award No.115/80-81. The nature Due consideration has been given to the fact that there is a time gap of one year and seven months between the dates of primary notification in the two cases. Keeping in view all facts and evidences I have assessed the market value of the land at the @ Rs.3500/- per bigha and awarded the same.

There is no wells, trees and structures on the land under acquisition.
