

SUPPLEMENTARY AWARD.

AWARD NO. 1209.

NARAINA.

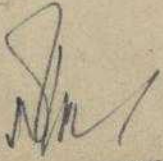

VILLAGE:

At the time of taking over possession of the land on 27.10.61 there were crops standing on the acquired land. The details of the crops, field-wise and owner and tenant-wise were prepared at the time of taking over, and handing over possession. Somehow the compensation for the standing crops could not be incorporated in the award. The Housing Commissioner has now on the request of the owners and the interested persons desired that necessary <sup>&</sup> due compensation should be paid to them. Before the work on the land was started by the C.P.W.D., some of the owners and tenants had removed their crops, and no compensation is assessed in their cases. For the remaining crops viz wheat, Gajar, Metha and Gram, compensation on account of seed and labour charges only, have been assessed as the crops were hardly a month old. As regards Arhar crop it was quite mature and full compensation minus harvesting charges has been assessed in this case.

The total compensation for the crops, works out to Rs. 6052.13 NP. only, which is hereby assessed and awarded. The compensation will go to the cultivators.
