MARKET VALUE

The market value of the land under acquisition is to be determined with reference to the price prevailing at the date of notification u/s 4 of the L.A. Act with all its advantage and potentialities. The best evidence to arrive at the correct market value of the land under acquisition would be the evidence of genuine sale effected about the date of notification either in respect of the land under acquisition or portion thereof or sale of land under acquisition.

Delhi Land Reforms Act is applicable to the land of Village Sahupur. The land in this Village can be used only for agriculture purpose. The claimants have not adduced any documentary evidence in support of their claim filed before L.A.C. In this Village no sale transaction has been taken place during the last 5 years from the date of notification u/s 4. Beside this no award has been announced prior to the date of notification u/s 4. In the absence of sale transaction/Court adjudications and awards, the relevant record of the adjoining Village for the purpose of assessing the compensation was consulted. Geographically this Village is surrounded by the Village boundary of Village Shahbad Mohd.pur, Toganpur and Amberhai. In Village Shahbad Mohd.pur, the L.A.C. has announced Award No. 10/86-87 having the date of notification u/s 4 as 27.1.1984 and assessed Rs. 13,000/- per bigha. As discussed earlier the date of notification u/s 4 in the instant case is 27.1.1984. To have reasonable and fair market value of land in Village Sahupur it has come to my mind that average rate of land per bigha in Village Sahupur is more or less at par with the rates prevailing in Village Shahbad Mohd.pur. If disparity in the rates for the land is made it will not meet the justice to the Bhumidars of the land in Village Sahupur. As such there is no basic difference in the land of Villages Shahbad Mohd.pur and Sahupur. As to potentiality, fertility and kind of soil etc. So, the price prevailing for the land in Village Shahbad Mohd.pur as on 27.1.84 should not be ignored.

Contd....19....

During the course of inspection I have found that there are some pits in the land under acquisition upto 10' depth for the purpose of assessing the market value of the land, I divide the land under acquisition into three Blocks namely A, B & C. Block A consist of level and even land excepting the land mentioned in Block B & C. Block B consist of pits land from where earth has been removed upto 5' deep comprising of following Kh. Nos. :-

<u>Kh. No.</u>	<u>Area</u> <u>Big-Bis.</u>
86	4-16
99	4-16
199	4-08
172 min	2-08
189 min	4-16
Total:-	<u>21-04</u>

Block-C consist of Pits land from where earth has been removed more than 5' to 10' comprising of Kh. Nos. given below :-

<u>Kh. No.</u>	<u>Area</u> <u>Big-Bis</u>
130	4-16
141 min	1-08
172 min	2-08
186	4-16
203	6-16
214/1	2-16
18 3/2	2-09
Total:-	<u>25-09</u>

In view of what has been discussed above regarding the quality of land and the price prevailing in Village Shahbad Mohd. pur and other factors into consideration I am of the view that Rs. 13,000/- p.h for the land classified in Block A & Rs. 11,000/- per bigha for the land placed in Block B & Rs. 8,000/- p.h for the land classified in Block-C would be fair and reasonable market value of the land under acquisition and award the same accordingly.
